  Voice Alarm
 Commercial Audio
  Civil Defence Approval
  EN 54 Certified

Description

The Integra-07 Public Address and Voice Alarm all-in-one network enabled voice alarm solution is available with seven channels of pre-installed amplification, which can be expanded at a later date.

The unit has 12 audio inputs and internal storage for up to 64 recorded messages. With a maximum power of 2000W, integrated audio-over-IP networking, powerful audio processing, and integrated battery charger and battery mounting shelf all in a compact wall-mount enclosure, INTEGRA provides a complete voice alarm solution for both medium to large centralised and decentralised PAVA systems.

Up to 32 INTEGRA can be linked by IP to enable broadcasts from any location to any combination of zones in large decentralised systems. The network switch (NETWORK-SWITCH-LP01) forms a voice alarm compliant ring network topology and can be easily mounted inside the enclosure.

Any INTEGRA variant and the rack mount equivalent VIPEDIA range interoperate seamlessly.

Accessories

NETWORK-SWITCH-LP01
PAVA Network Switch - Layer 2
